Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Tuesday 13 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A mixture of sunshine and scattered showers.

Today:
After a bright and frosty start, cloud will build in from the west bringing a mixture of sunny spells and scattered showers, these turning heavy at times. Feeling milder than Monday. Maximum temperature 10 deg C (50 deg F).

Tonight:
Any showers will soon ease during the evening to leave a largely dry night with clear spells. Cold, with lights winds allowing for patchy frost and fog to form. Minimum temperature 0 deg C (32 deg F).

Wednesday:
A largely dry day with sunny spells and the odd light shower. Cloud will lift by evening to leave a clear and cold night with a widespread frost. Maximum temperature 11 deg C (52 deg F).

Outlook for Thursday to Saturday:
Mainly dry with sunny spells and light winds throughout. Gradually becoming milder, though cold overnight with frosts and some fog patches.
